The Cyrenians Calendar of Events

The Cyrenians help people make lasting positive changes in their lives. We are innovative, progressive and courageous in our work. We work with vulnerable, disadvantaged and homeless people; their needs are our foremost concern. We have a 'total acceptance policy'. We work holistically – combining appropriate services and support for each individual. Our support ranges from emergency intervention to training and employment. Take part in an event to raise money to help some of the most vulnerable and socially disadvantaged people in the North East
